

AMG SIGNS MULTI-YEAR CONTRACT TO SUPPLY AVAILABLE PRODUCTION TO GLENCORE

Amsterdam, 26 September 2019 (Regulated Information) --- AMG Advanced Metallurgical Group N.V. ("AMG", Euronext Amsterdam: "AMG") is pleased to announce that it has signed a long-term agreement to supply 100% of its available ferrovanadium production from both the existing and the future Ohio facilities to Glencore AG, a subsidiary of Glencore plc ("Glencore").

AMG Vanadium specializes in the environmentally beneficial conversion of oil refinery and power plant waste products into ferrovanadium, nickel and molybdenum primarily used by global steel producers in automotive, energy transmission and infrastructure applications. By using materials that would otherwise be discarded as waste, AMG Vanadium creates environmental stewardship, energy conservation and resource recovery in line with AMG's CO₂ reduction strategy.

Glencore is one of the world's largest global diversified natural resource companies and a major producer and marketer of more than 90 commodities. The Group's operations comprise around 150 mining and metallurgical sites, oil production assets and agricultural facilities.

With a strong footprint in both established and emerging regions for natural resources, Glencore's industrial and marketing activities are supported by a global network of more than 90 offices located in over 50 countries.
